

CareAbility Newsletter

Welcome to our May Newsletter!

April was a HUGE month here at CareAbility with lots of fantastic activities and programs for our participants to enjoy! The Autumn School Holiday Program welcomed some new participants and it was fantastic to continue getting to know the newest members of the CareAbility community!

We have also welcomed a new staff member in April which many of you will have had the pleasure of meeting over the school holidays. Amy has moved into the team seamlessly and we are so excited to have her onboard!

This month we will commence planning for the Winter School Holidays, along with booking July-September for our Young Adults. Requests for both of these are due back at 9am, Monday 12th May. Please make sure you get your requests in by responding to the relevant emails.

Have a great month!
Christie

Jackson's Fun Facts!

The History of Roadrunner Records

Roadrunner Records are a European Music Label and were founded in 1980. In the mid-80's they moved to America and became the go-to music label for American Heavy Metal and Rock bands. They released albums by heavy metal bands such as Slipknot, Soulfly, Korn, Fear Factory and Speltura. They also released albums by rock band Nickelback in the 2000's. My favourite band that has been signed to Roadrunner Records over the years is Slipknot!

APRIL WRAP UP

Don't miss the train!
Eliza, Jason and the crew travelled to Williamstown to spend a lovely day in the sun! And of course get some Fish and Chips

Patrick got into the artistic spirit at The Lume! We all know Patty loves to draw, how wonderful of The Lume to offer a live drawing section?! We highly recommend!

Jason working hard in the gym! A new addition to his routine, Jason is loving his weekly workouts and is always eager to try something new!
